

Want to join a new network for implementation research?

Screening and Lifestyle Interventions for Pre-diabetes & Metabolic Syndrome

Join this first ever network of researchers, clinicians and implementation specialists to improve the uptake of health system screening and structured health behaviour change to address prediabetes and metabolic syndrome in Canada

Goals

Identify gaps & common interests

Identify funding opportunities

Publish & publicize research

Create an opportunity to interact and review ongoing work

Delphi process for common outcome indicators for studies

Generate a research agenda of new collaborations & funding proposals

Collaborating for Impact!
